Patents **1 - 10** on **asynchronous request acknowledgement**. (0.06 seconds)

Sort by relevance | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)

Interaction protocol for managing cross company processes among network ...

US Pat. 6772216 - Filed May 19, 2000 - Sun Microsystems, Inc.

The **asynchronous Request**/Reply model is also called application domain, ...

The receiving party sends **Acknowledgement** mes- roles of the participants, ...

Pipelined completion for asynchronous communication

US Pat. 6038656 - Filed Sep 11, 1998 - California Institute of Technology

1 shows two communicating processing stages in an **asynchronous** pipeline circuit

based ... More specifically, the control part processes the **request** from the ...

Method and apparatus for extending the range of the universal serial bus ...

US Pat. 6381666 - Filed Feb 18, 2000 - Igron Systems Inc.

55 With respect to an **asynchronous** data stream, and in general, a non-time relevant

... an original **request** for **asynchronous** data from a host controller; ...

Multi-ported memory with asynchronous and synchronous protocol

US Pat. 6282144 - Filed Mar 13, 2000 - International Business Machines Corporation

Thereafter, if neither of the **asynchronous** read port 202 or the **asynchronous**

write port 204 contains an active **asynchronous request**, the second multiplexer ...

Method and apparatus for transmitting data over data bus at maximum speed

US Pat. 6397277 - Filed May 19, 1999 - Sony Corporation

The **asynchronous** subactions consist of arbitration sequences 51-1 and 51-2, ...

receipt of the original **request** by transmitting an **acknowledgement** 53-1 back ...

Model train control system

US Pat. 6270040 - Filed Apr 3, 2000 - KAM Industries

Together with packaging the command for the command queue 104, the **asynchronous**

command processor 100 provides a command to the **asynchronous request** ...

Method and system for message transfer session management

US Pat. 6205498 - Filed Apr 1, 1998 - Microsoft Corporation

Due to the **asynchronous** nature of message delivery, the Ping Originator program

can send many **request** messages at one time without having to wait for any ...

Asynchronous pipeline with latch controllers

US Pat. 6958627 - Filed Sep 21, 2001 - Trustees of Columbia University in the City of New York

An **asynchronous** digital pipeline circuit for processing data in an environment,

US Pat. 6529932 - Filed Apr 1, 1998 - Microsoft Corporation

Similar the **request** message; to the distributed transaction in a single ...

Pre-set transaction timeout period, network with **asynchronous** message delivery, ...

US Pat. 6157972 - Filed Nov 20, 1998 - Texas Instruments Incorporated

4, there is illustrated a subaction in the link layer 52 for an **asynchronous** transmission of a packet. This subaction is in the form of a **request** and a ...
